Entity Details Page Overview

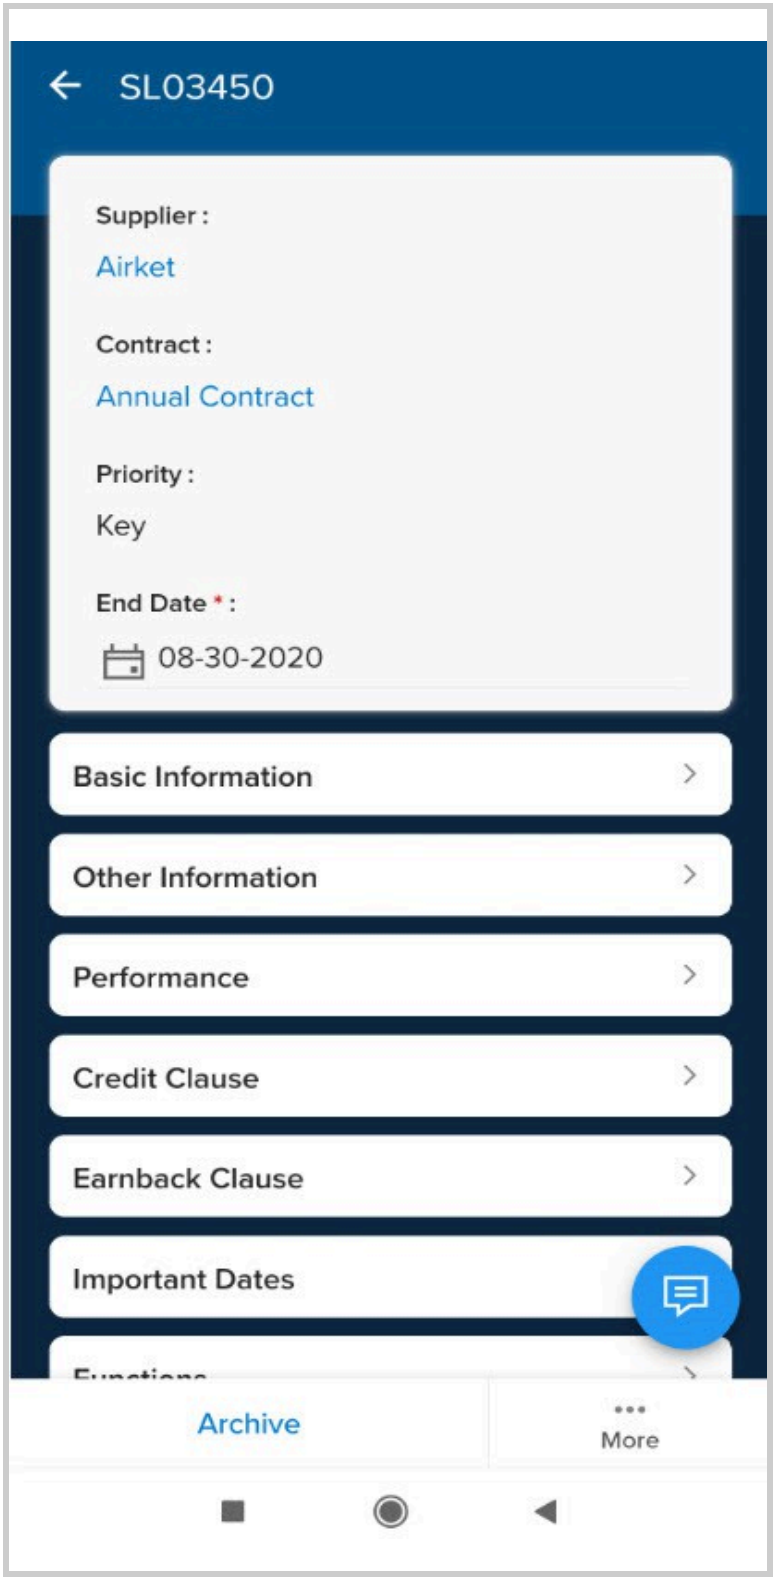

Updated on May 23, 2025

Focus Listen

Entity details page displays various details about an entity.

Perform the following steps to view the entity details page:

1. Open an Entity group from the Quick Link panel and click an entity.
   The entity page appears.
2. Click an entity ID under the **ID** column. The entity's details page appears.
   Alternately, you can also enter an entity ID in the **Search** field to view the entity details page.

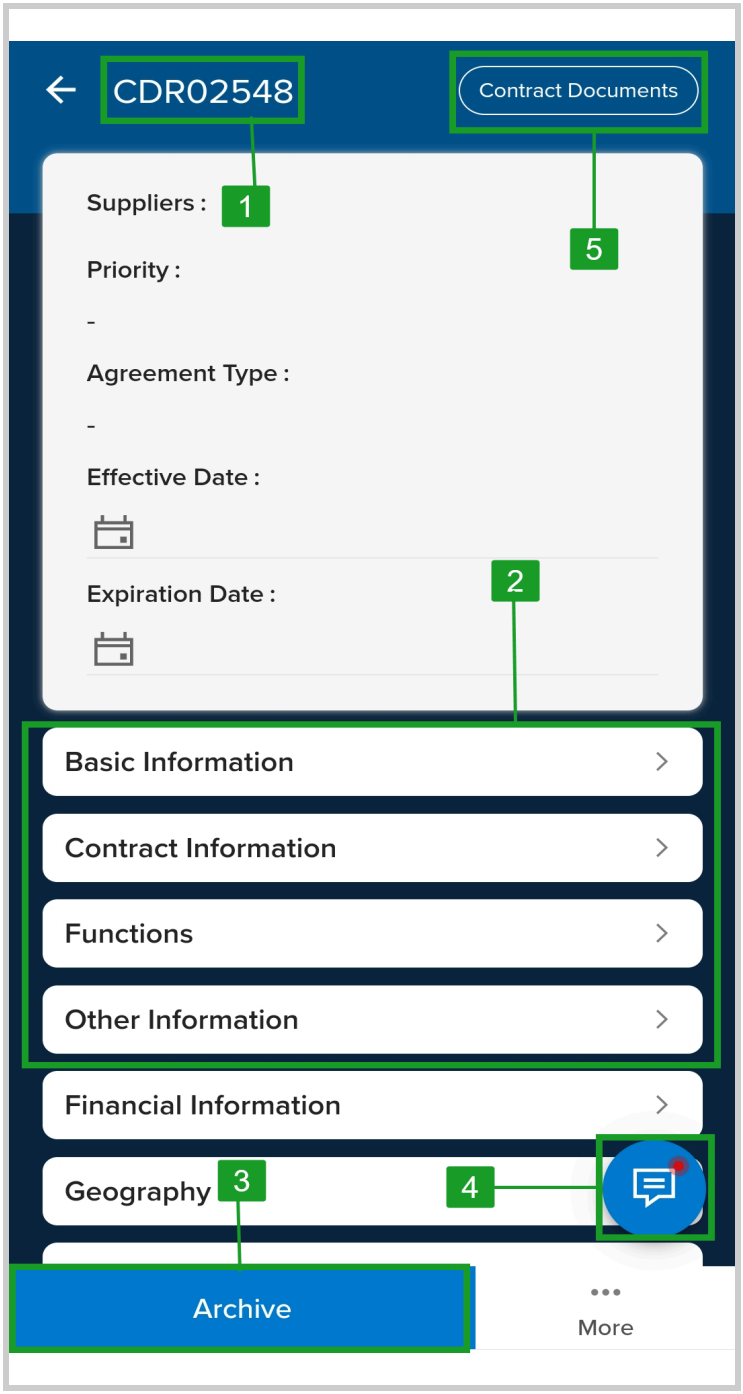

Entity Details Page Components

An entity details page shows the following components:

1. **Entity ID**: It displays the unique ID assigned to the entity. The ID of the entity is visible on top of the entity title. For the entities that have child entities, such as Service Level,

Obligation, and Governance Bodies, both the parent entity ID and the child entity ID will be available, separated by (/) on the child entity's details page. For example, GB02481 / CGB02948. If a user clicks the linked parent ID, they will be directed to the parent entity's details page.

2. **Metadata Groups**: It consists of the relevant fields that show the data related to the entity. The metadata groups may vary for different entities. Some of the examples of metadata groups are Basic Information, Important Dates, Functions, Geography, and so on.
3. **Workflow Status Configuration**: It allows you to update the entity status. By default, it displays the immediate workflow status, which can be assigned to an entity
4. **Communication Panel**: It allows you to add comments for an entity.
5. **Contract Documents:** To view documents present under the Contract Documents tab. The **Contract Documents** button is only available on Contract Request entity details page (add contract screen).
6. **Documents:** To view documents present under the Document Repository and Contract Documents tab. The **Document** button is only available on Contract.

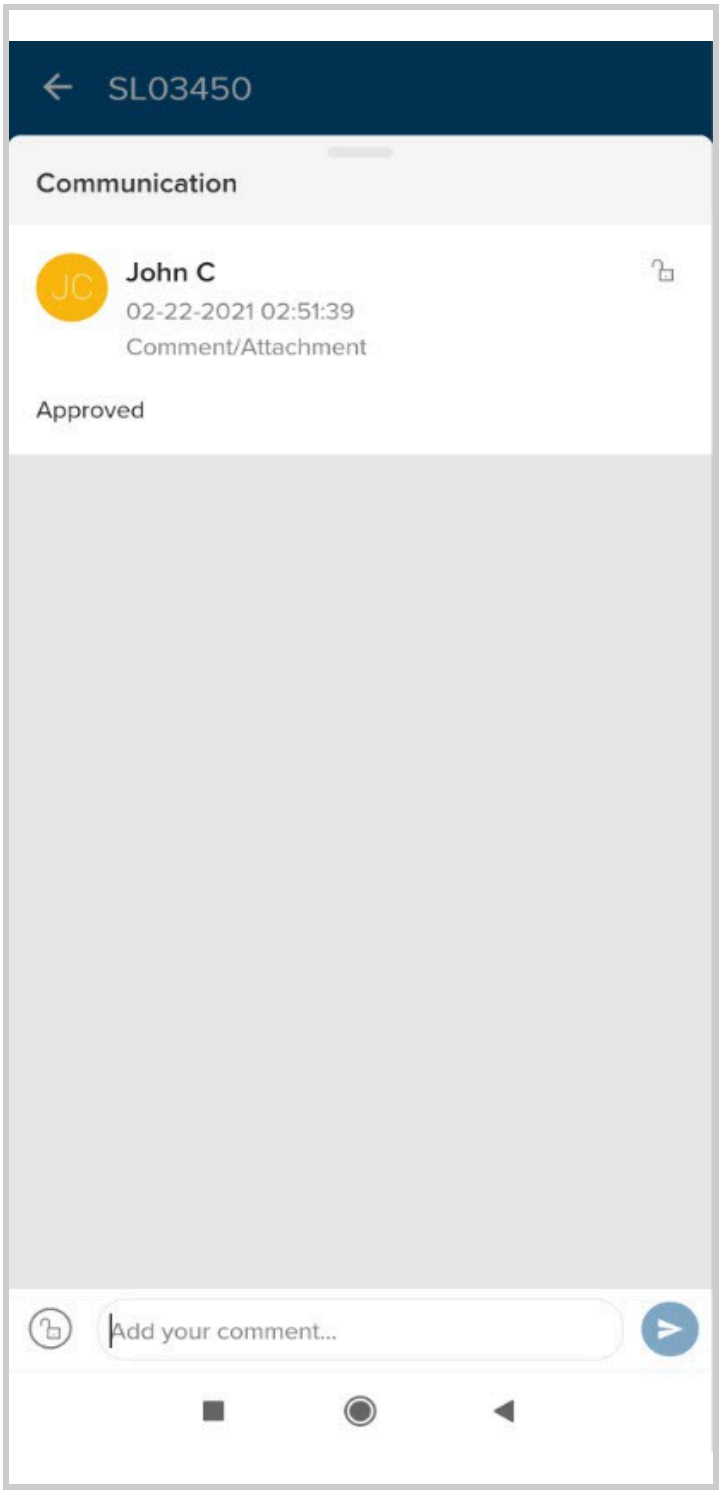

Communication Panel

You can add comments for an entity by using the Communication ( ) option. You can also find a document attached to the comment, view the document in the document viewer and download them, as required.

The communication section displays the following:

1. **Comment**: The comments entered in the Comment field are displayed.

2. **Completed By**: The name and initials of the user whose completed actions are displayed.
3. **Date and Time of Action**: The date and time of adding the comment is displayed.
4. **Status**: The current status of the entity is displayed.
5. **Private/Public**: The privacy status of the comment and/or attachment.

For the Communication section, while moving the workflow ahead on any of the entity details pages, if the following fields are not filled, then an error message will appear, and the user will be unable to move the workflow ahead:

- Requested By
- Change Request
