Focus Listen

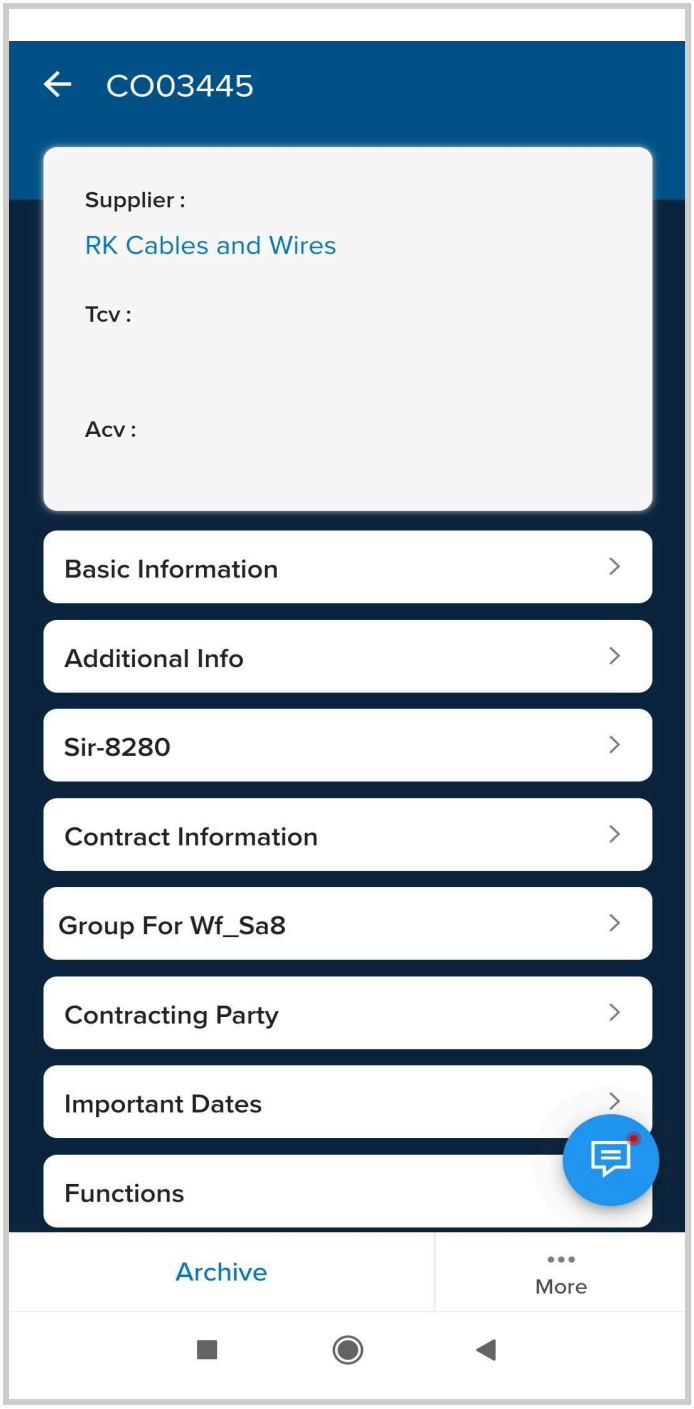

The EntityID search provides the result based on the entity IDs. To use this search, the entity ID entered in the Search box must be correct.

Perform the following steps to search for an entity ID on the Sirion mobile application:

1. In the Search box, enter the valid entity ID.
2. Click the **Entity ID matching** option.

   The entity details page appears for the corresponding entity ID.

Search
CO03445
Entity ID matching CO03445
Contract Documents containing CO03445
Attachments containing CO03445

3. If the entered entity ID is not valid, then you will get the notification *"Please enter a valid Sirion ID"*.
4. If the entity ID does not exist or deleted or you do not have the required permissions to access, then you will get the notification as *"Either you do not have the required permissions or this Entity has been deleted or doesn't exist anymore"*.
