Introduction

Updated on May 23, 2025

Focus Listen

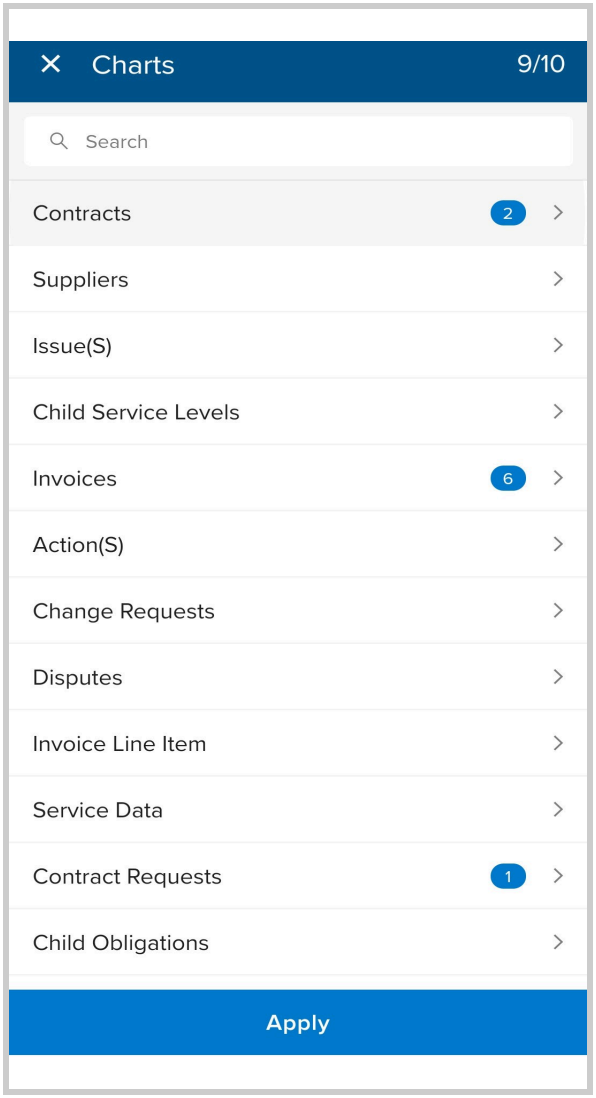

The Home () icon of Sirion mobile application displays the entity-based Business Intelligence (BI) charts. Users can customize their dashboards to perform their day-to-day tasks by changing the position/sequence of the charts via drag and drop capability.

How to Add Entity Charts

You can add **10** entity-based BI charts under the Sirion home page.

Perform the following steps to create the entity-based BI charts:

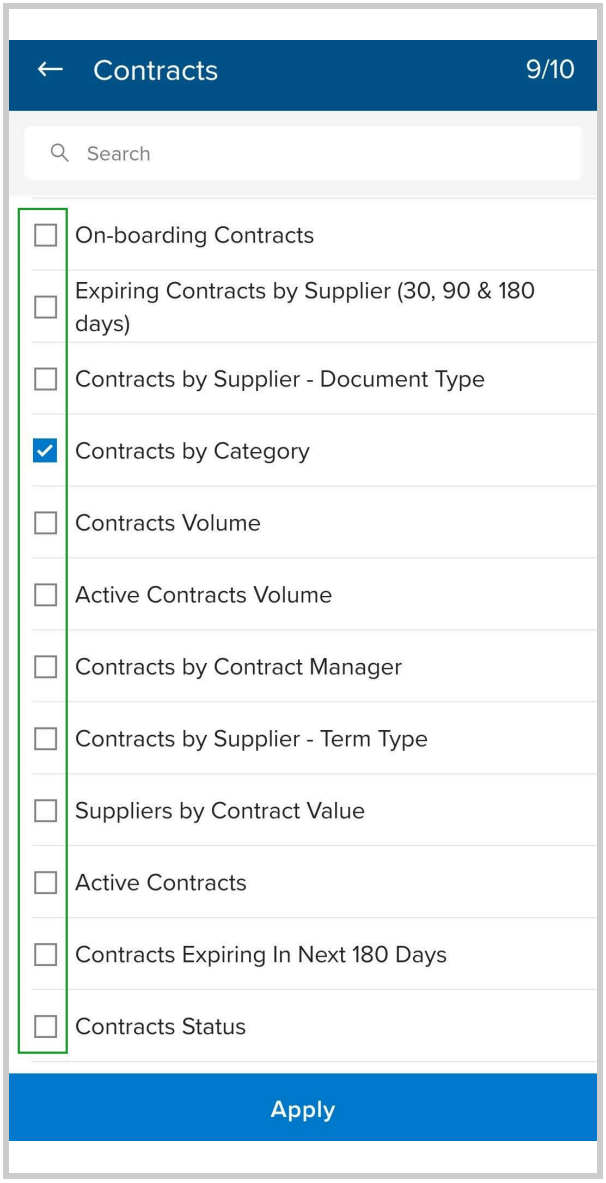

1. Click the **Charts** () icon.
   The list of entities appears.
2. Expand an entity for which you wish to add a BI chart on the Home page.
   The list of charts appears.

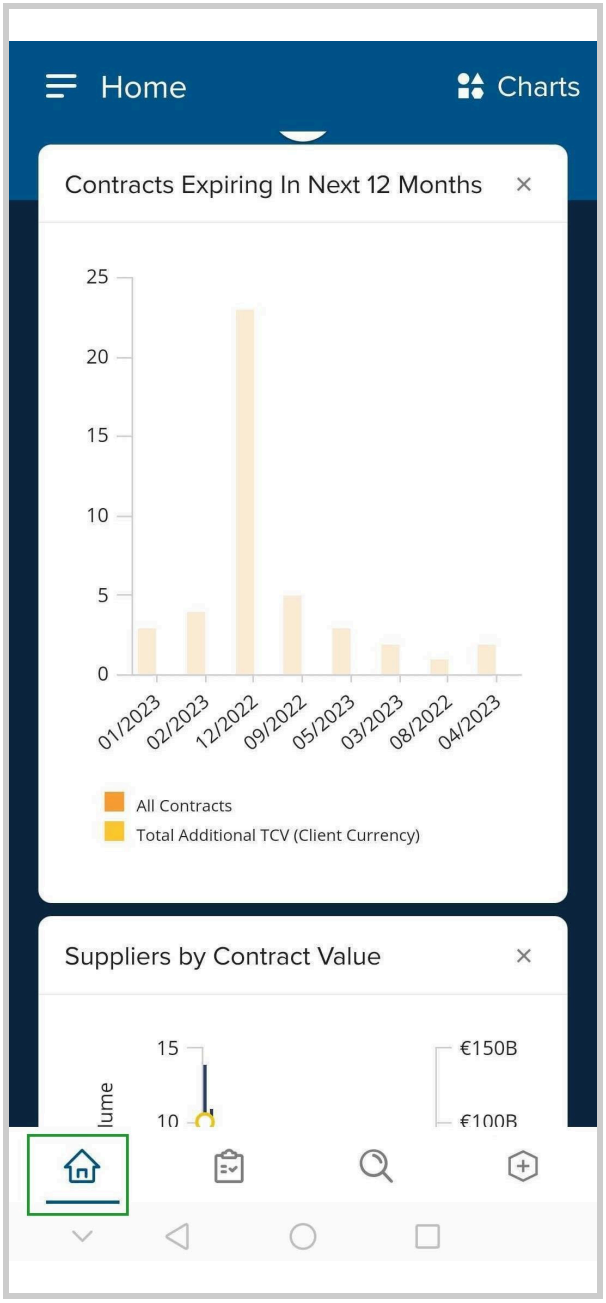

3. Select the relevant BI chart from the list.

   Alternatively, you can also search the charts using the **Search** bar.

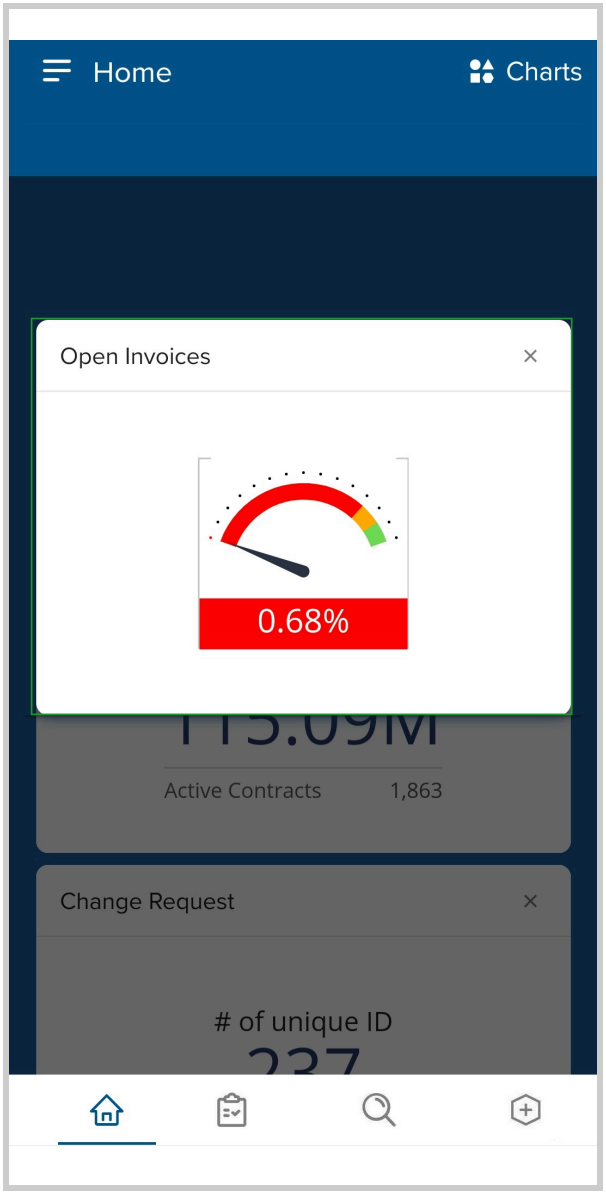

4. Click **Apply**.

5. The selected charts will be added under the Home page.

6. You can also reposition the charts via holding and scrolling it up and down.
