Sign in to Sirion

Updated on May 23, 2025

Focus Listen

A user with valid Sirion ID and Password can sign into the Sirion mobile application. Sirion mobile application also supports Two Factor Authentication (2FA) method for secure login through email and mobile app authentication.

Type of Login Mechanism

Sirion mobile application supports following login mechanism:

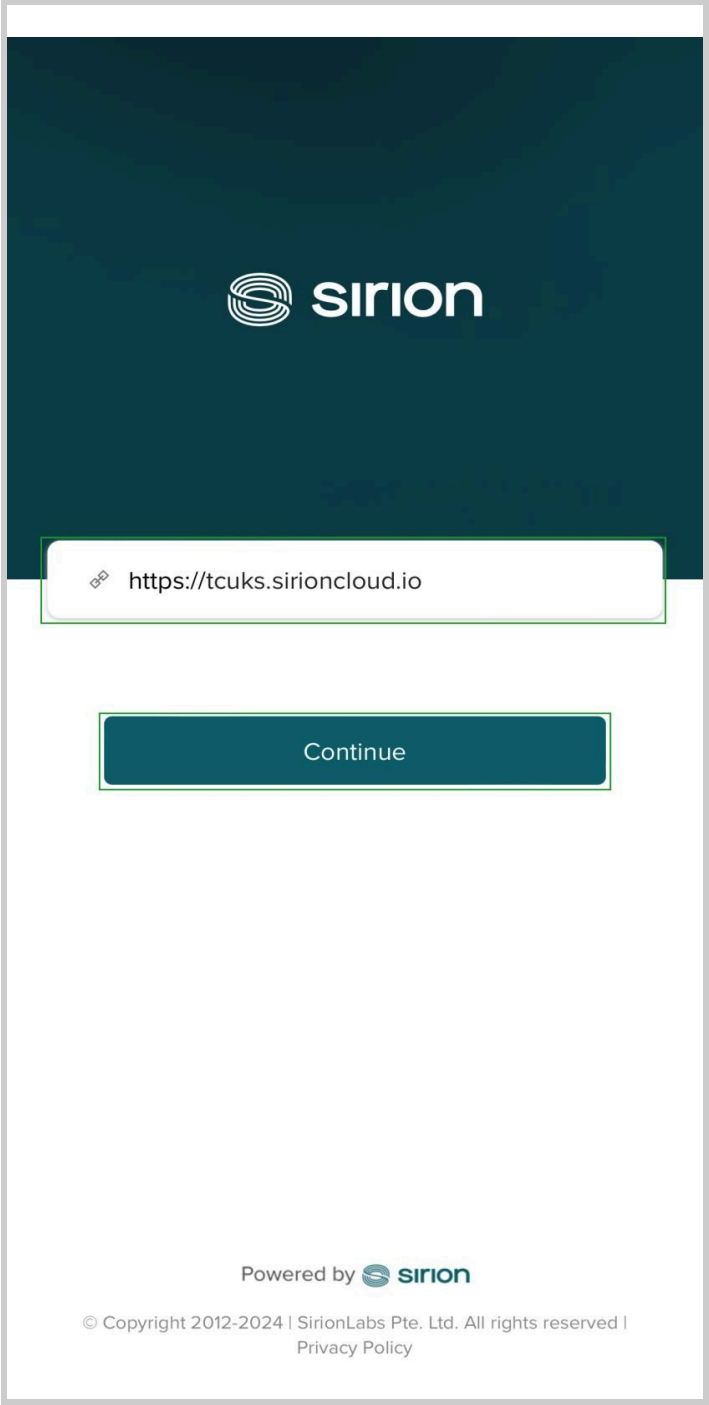

- Standard login (Username and Password)
- Two-Factor Authentication (2FA)

Standard Login

Perform the following steps to login through standard login mechanism:

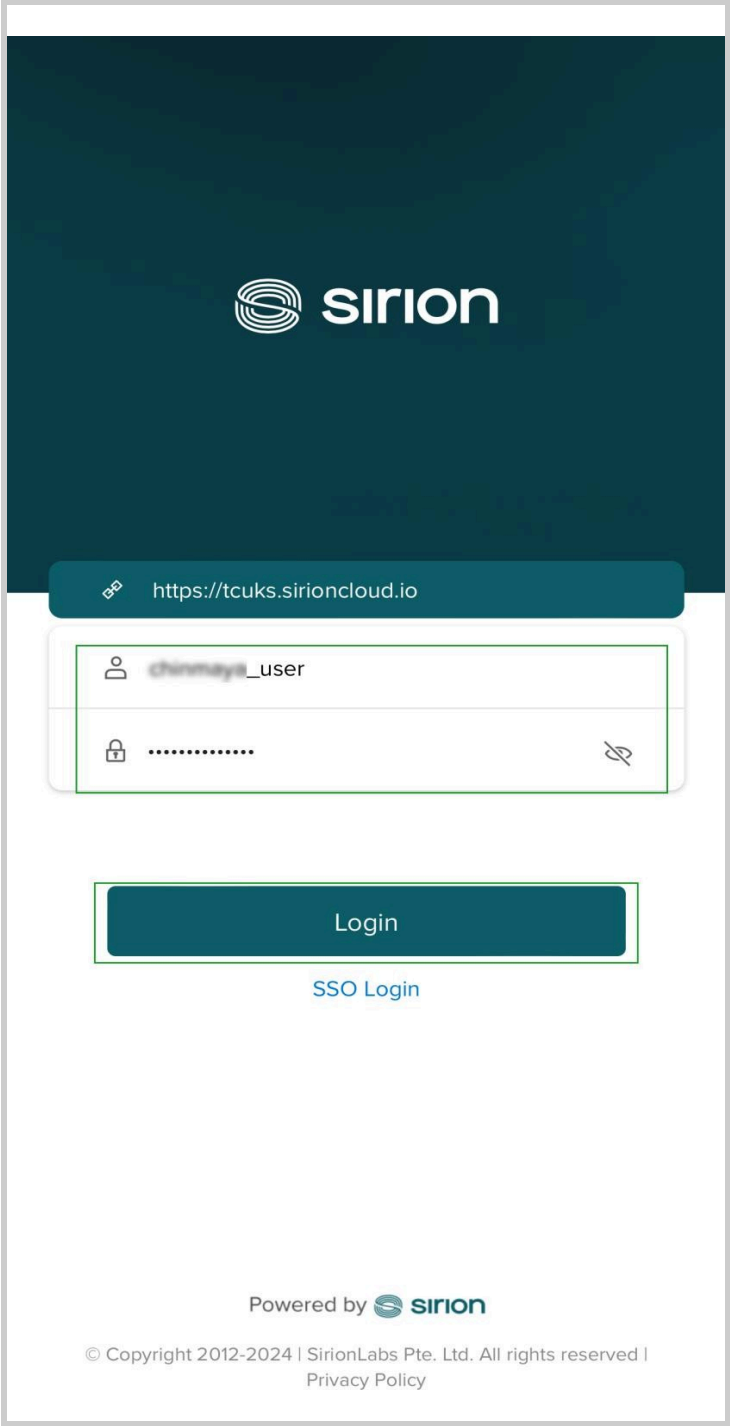

1. Enter the Sirion URL and click **Continue**.

   The Sign into Sirion dialog box appears.

2. Enter **Sirion ID** and **Password** in respective fields.
3. Click **Login**.

   The Sirion Home Page appears.

Two-Factor Authentication (2FA)

The following authentication methods are used for 2FA:

- Email Authentication
- Mobile App Authentication

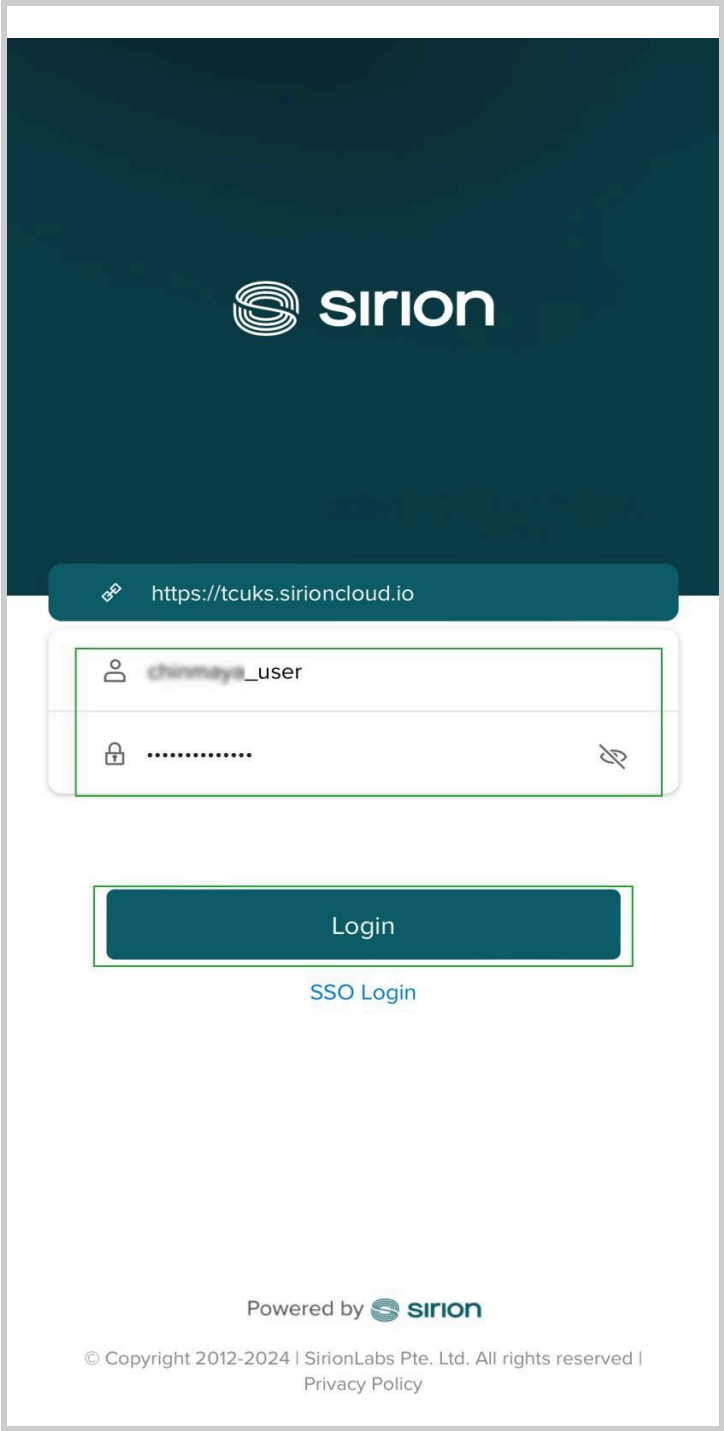

Login via Email Authentication

Perform the following steps to login through Email Authentication:

1. Enter the Sirion URL and click **Continue**.

   The Sign into Sirion dialog box appears.

2. Enter **Sirion ID** and **Password** in the respective fields.

3. Click **Login**. The Sirion's 2FA page appears.
4. Enter the OTP received via email in the respective field.
5. Click **Secure Login.**

   You are redirected to the Sirion Home Page.
