Working with To Do

Updated on May 23, 2025

Focus Listen

The **To Do** section displays the upcoming approvals, tasks, and meetings of a user for today and upcoming days. By default, the first three ‘To Do’ cards will appear in the expanded form.

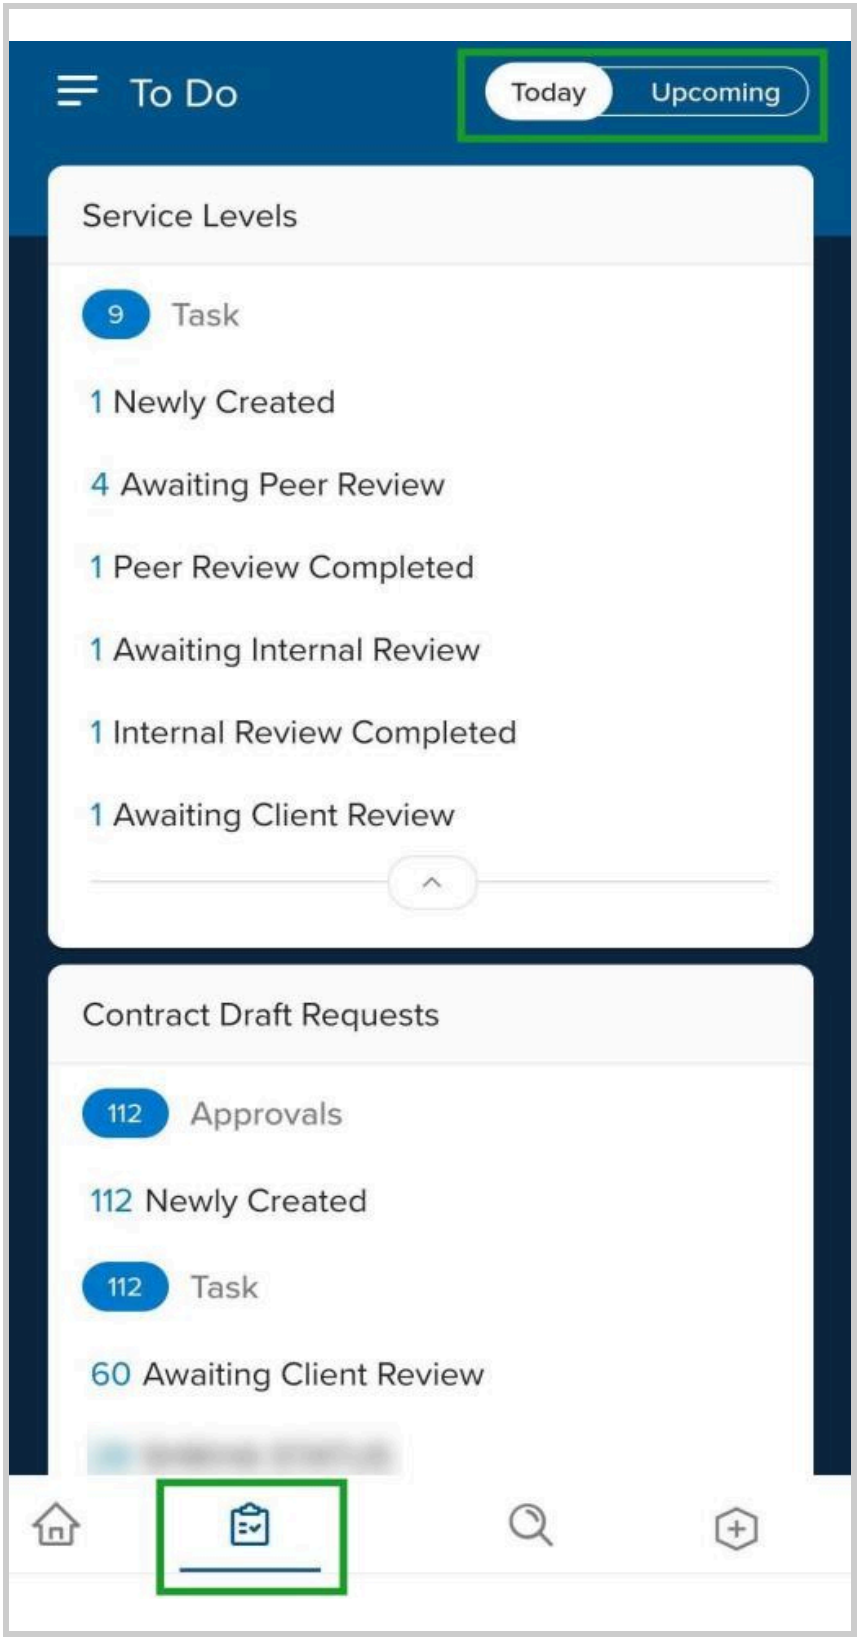

How to Access To Do

Perform the following steps to access To Do:

1. Click the **To Do** ( ) icon.

   The To Do section appears.

2. Toggle between the **Today** and **Upcoming** tabs to view the today/upcoming tasks.

To Do Tabs

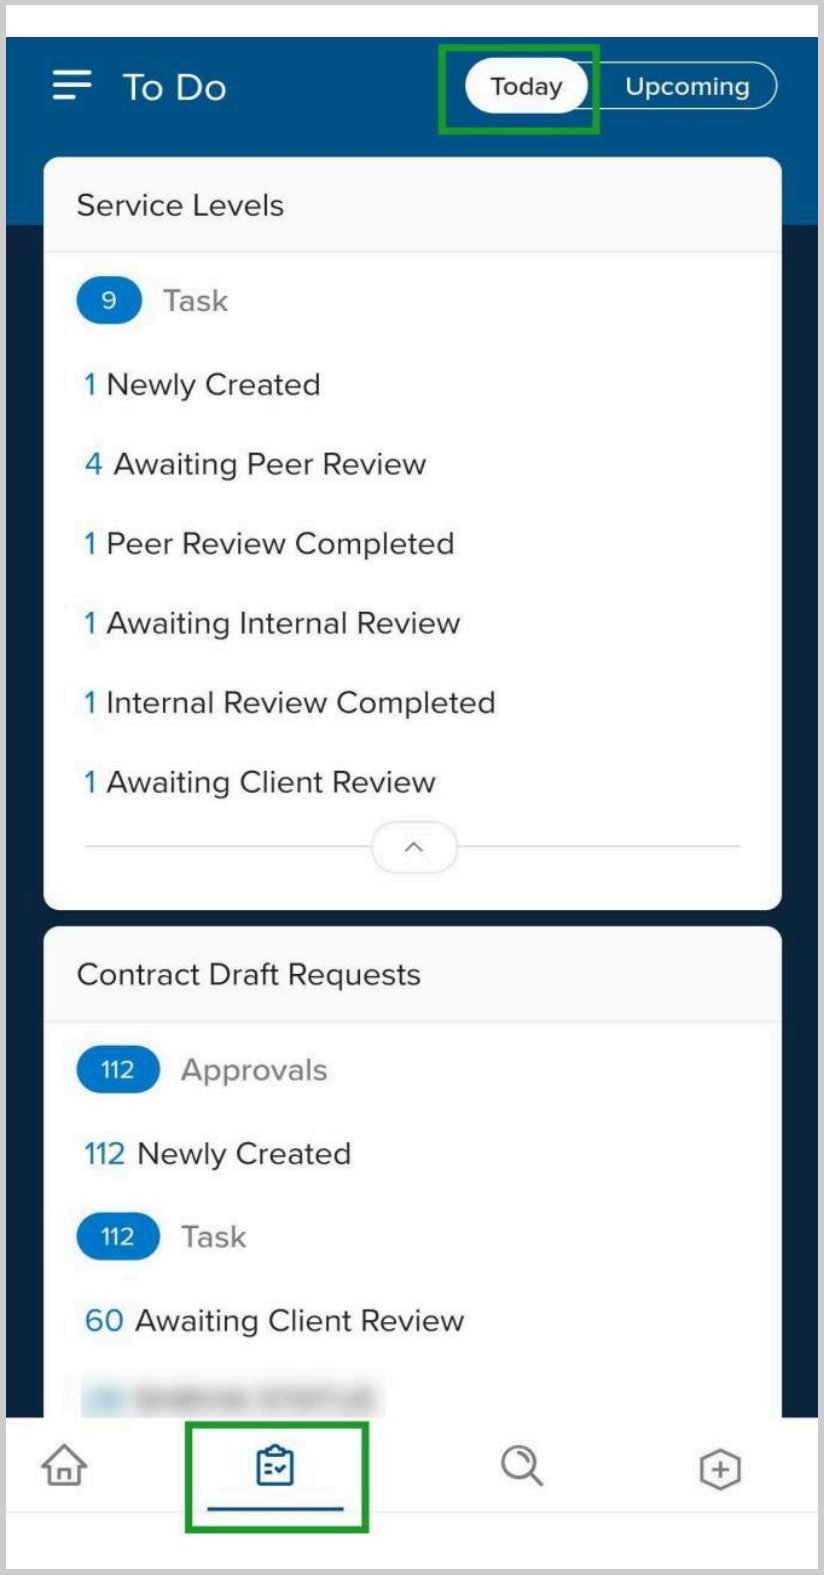

The following tabs are present under the To Do section:

- Today

- Upcoming

Today

You can view the pending tasks/approvals under the **Today** tab, if the user's role group has been configured by the Client Admin.

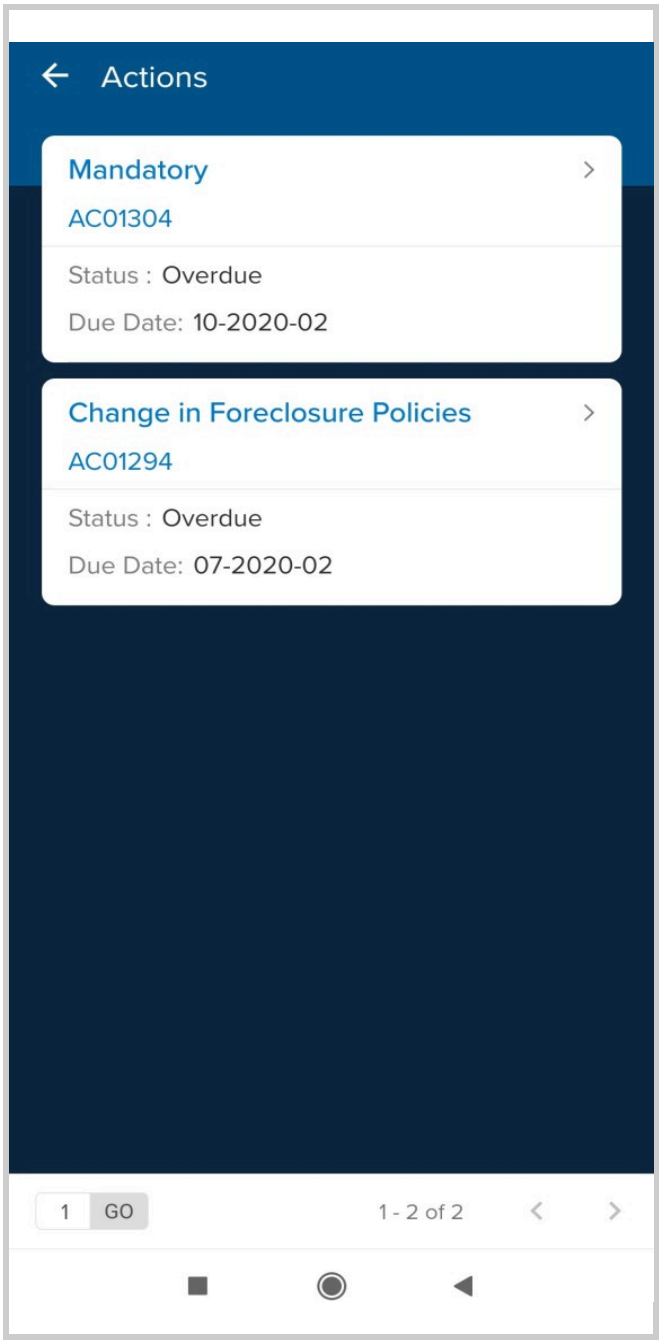

Tasks and Approvals

The Today tab displays the **Tasks** and **Approvals** that are grouped separately for supported entities on which the user has not taken any action on their respective due date.

Perform the following steps to access and update the pending tasks and approvals of an Entity Type that are due for today, under the Today tab:

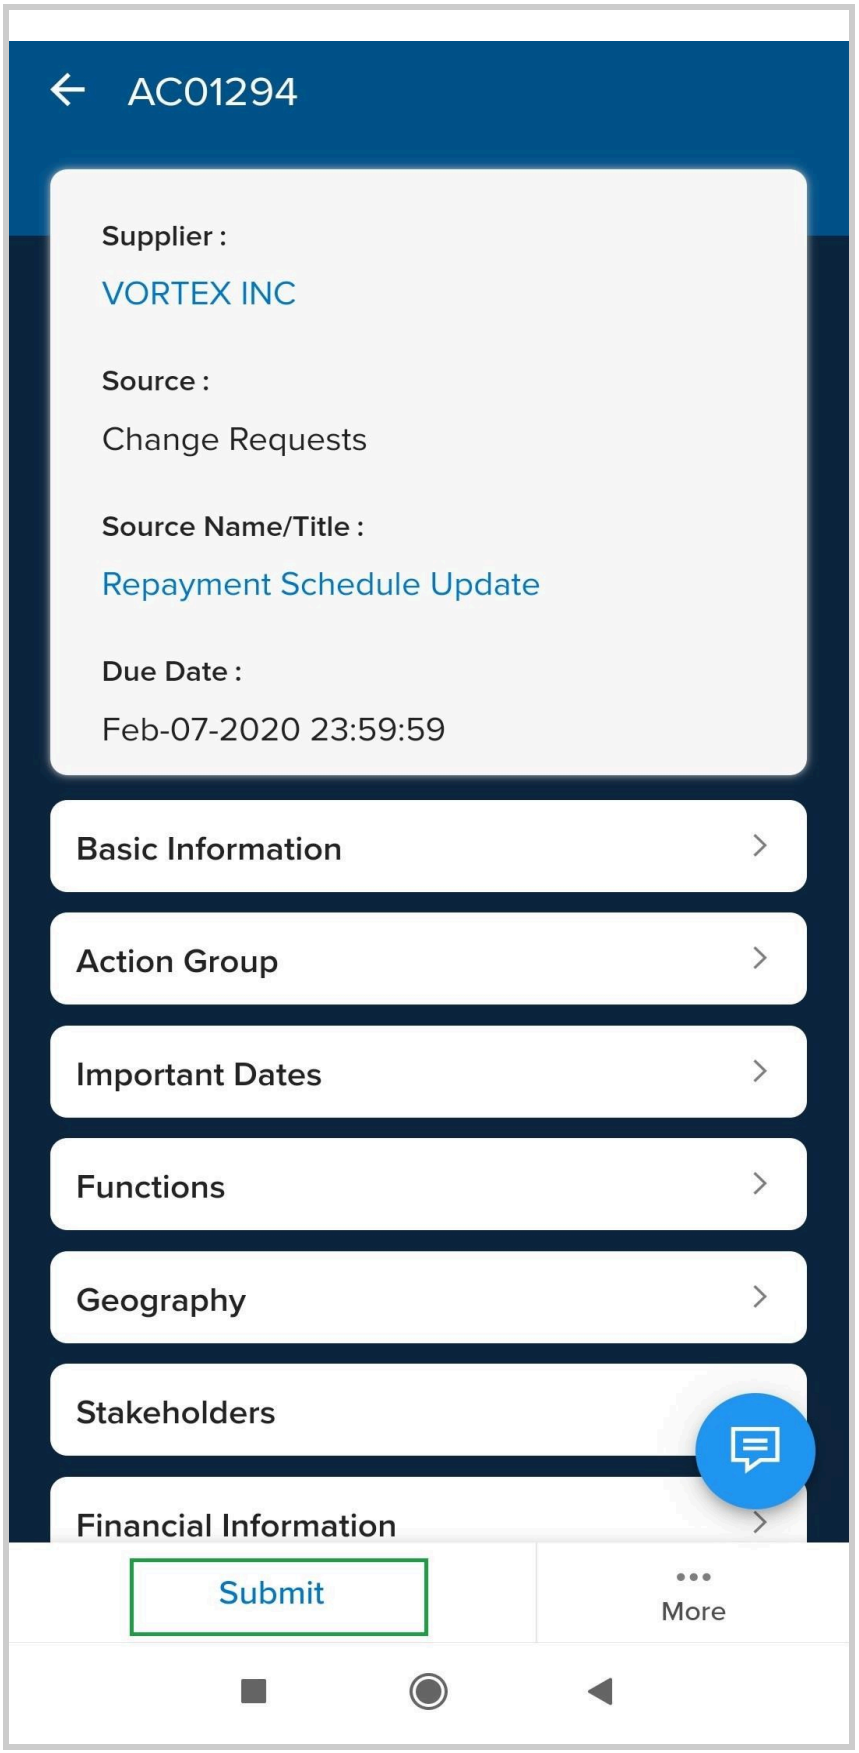

1. Click the **Tasks** and **Approvals** under an Entity type.

   The list of entities with pending tasks or approvals appear with their respective Entity ID, Title, Due Date, Status legend and so on.

2. Click the entity to update their status as configured in the workflow.

   The entity is removed from the list of **Tasks** and **Approvals** and the respective count for the given entity type is also updated.

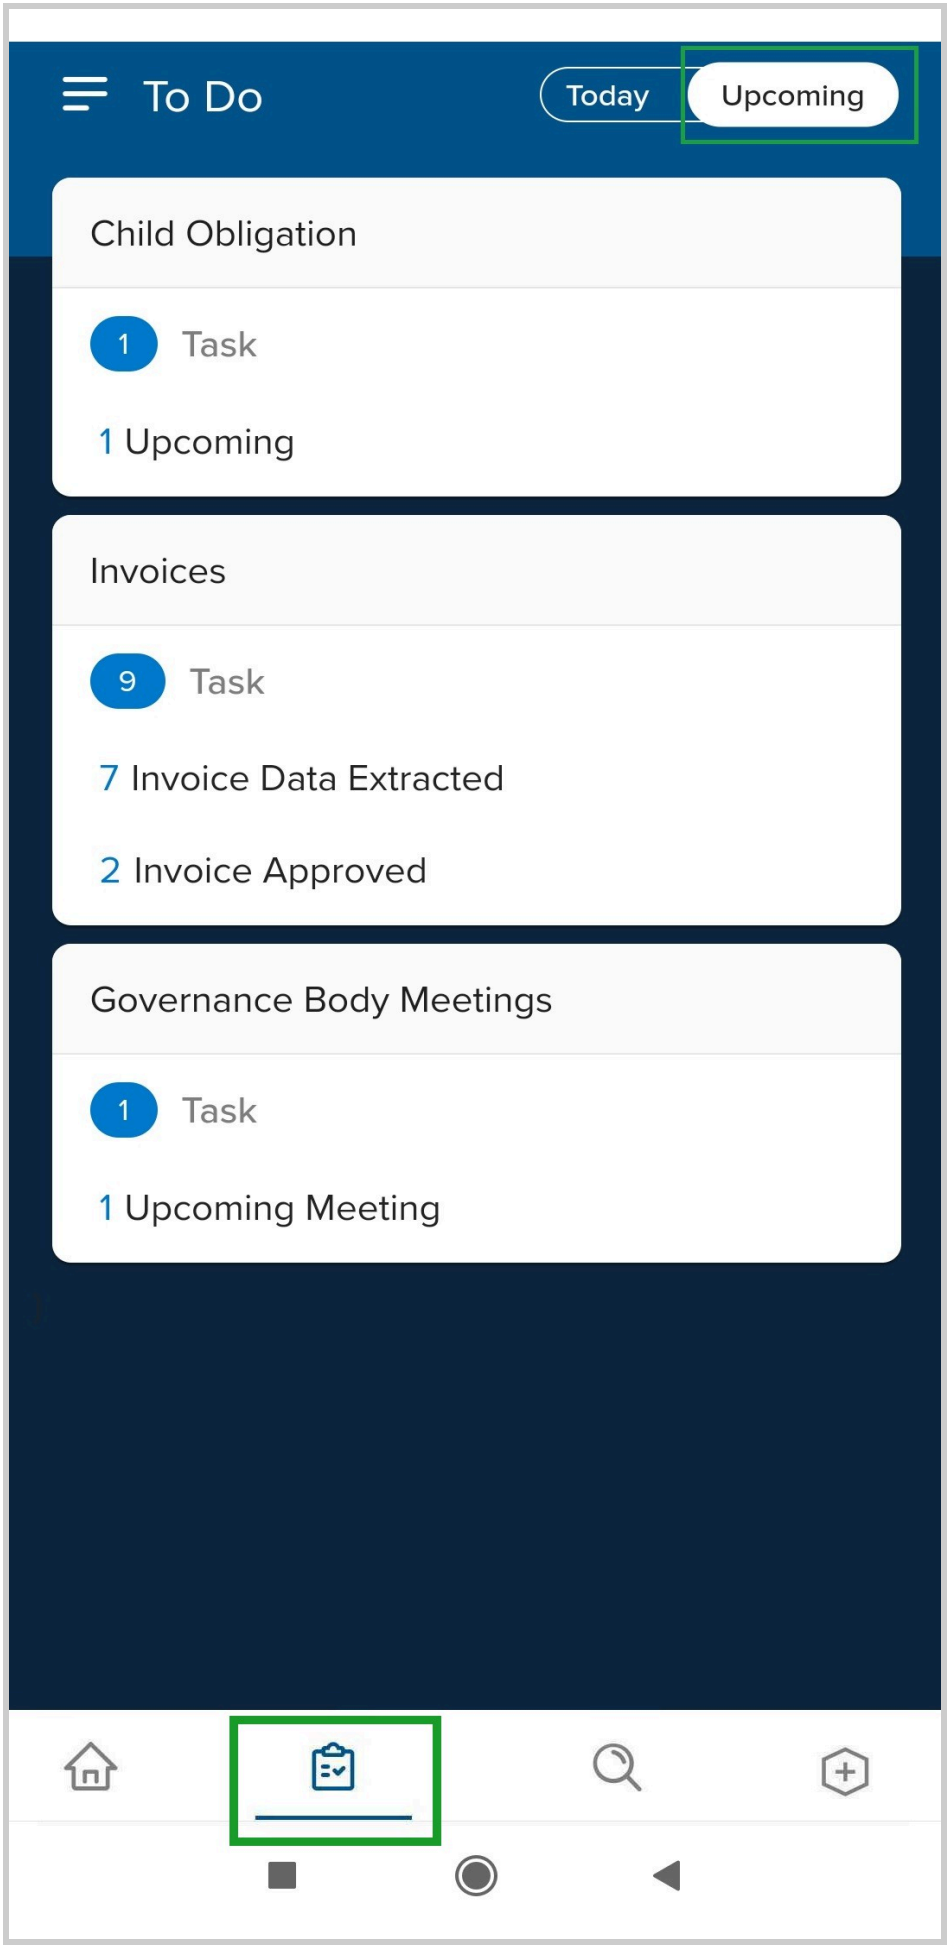

Upcoming

You can view the pending tasks under the **Upcoming** tab of **To Do** section, if the user's role group has been configured by the Client Admin.

An entity will appear under **Upcoming** tab of if its current status is neither selected under **Approvals** drop down nor **Exclude Statuses** drop down by the Client Admin. The entities that appear under the Upcoming tab will have due date within the **15** days only.

Perform the following steps to access and update the pending **Task** under the **Upcoming** tab:

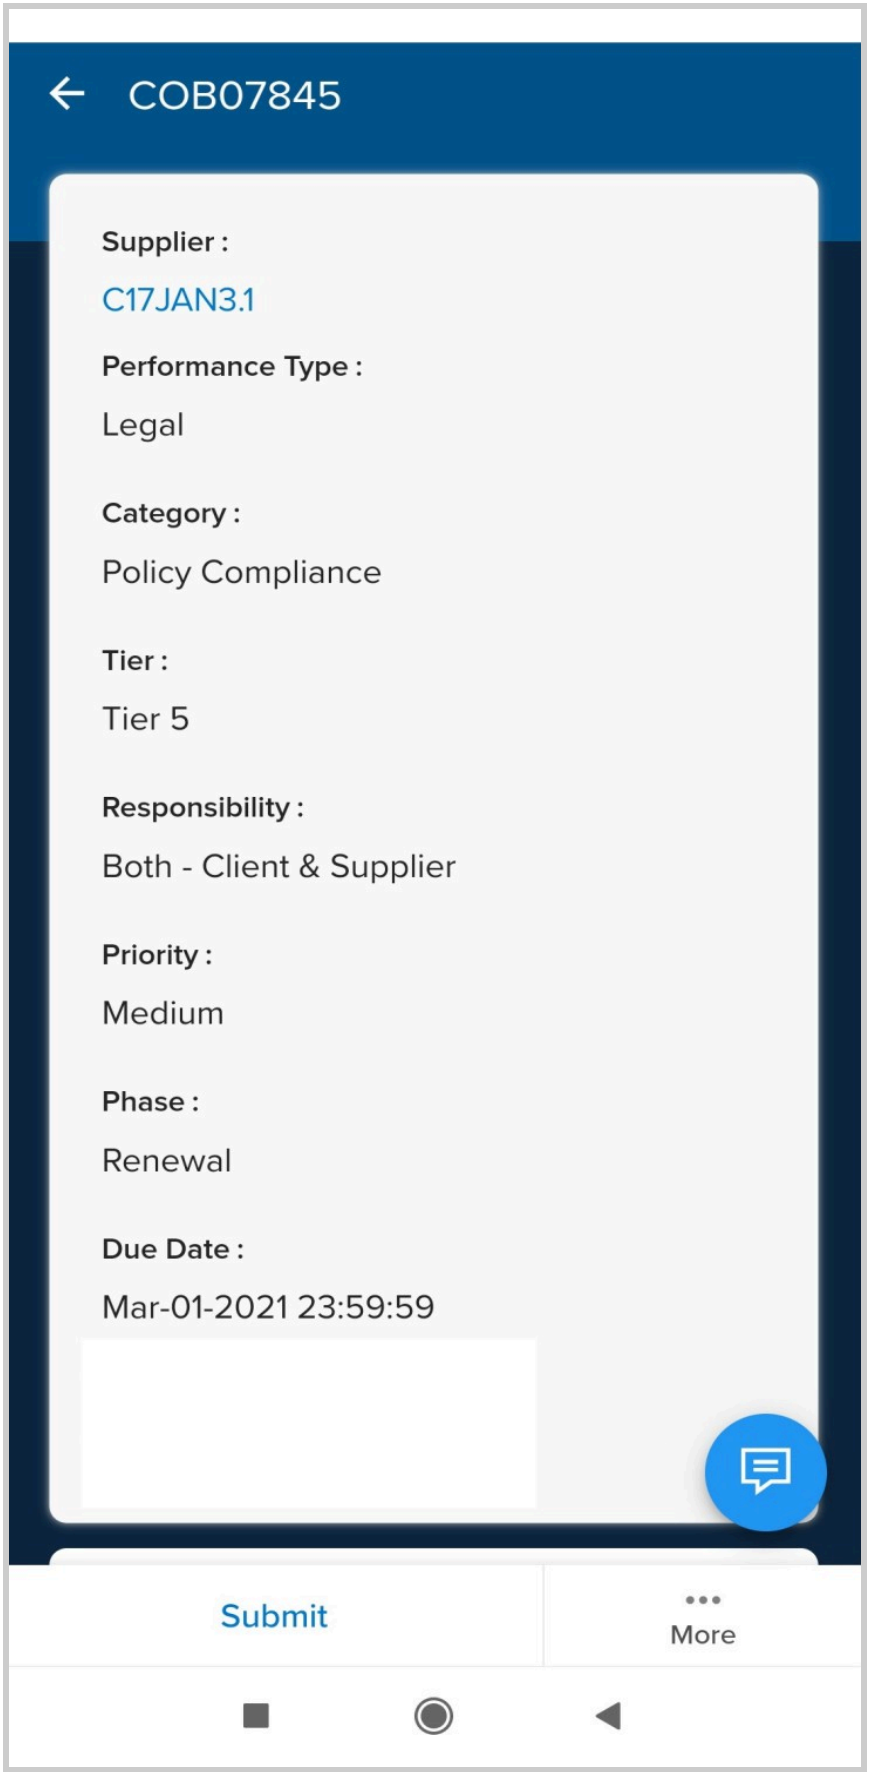

1. Open the **Upcoming** tab.

To Do
Today
Upcoming
Child Obligation
1 Task
1 Upcoming
Invoices
9 Task
7 Invoice Data Extracted
2 Invoice Approved
Governance Body Meetings
1 Task
1 Upcoming Meeting

2. Click the pending task under an entity type.
   The list of entities that have pending tasks appears with their respective entity ID, title, due date, status legend and so on.

3. Click the entity to update their status as configured in the workflow.
   The entity is removed from the list of tasks, and the respective count for the given entity type is also updated. When an entity does not have any pending tasks and approvals, the "*No Data*" message is displayed.
